Gift Card Holder In The Hoop

Instructions:

1. Hoop your stabilizer. You can use water soluble stabilizer or tearaway stabilizer.
2. You will first stitch the file that has "Side 1" at the end of the name. Use a 4x4 or larger hoop. This will be the first side of your gift card holder.
3. Stitch design step 1 onto the stabilizer, which is a placement step. Use a fabric that won't fray, such as felt or vinyl. Place your fabric with the right side up using the placement stitches as a guide. (If you like, you can use a little bit of adhesive to keep the fabric in place).
4. Next, stitch the tack down step. This will hold your fabric in place and is the last step for side 1.
5. Next, if this design includes a decorative design for this side, it will stitch across the applique area of side 1. If the design includes applique, there will be a placement, tack down, and satin stitch for the applique area. Trim the applique between the tack down and satin stitch.
6. Remove side 1 from your hoop and trim the top as close as you like, but only trim your fabric to ¼" around the outside edge on the sides and bottom.
7. You will now start stitching the file that has "Side 2" at the end of the name. This will be the other side of your gift card holder. Hoop your stabilizer as before, and again use fabric that won't fray.
8. Just like before, stitch the placement stitch, place your fabric right side up, then stitch the tack down step.
9. Next, if this design includes a decorative design for this side, it will stitch across the applique area of side 2. If the design includes applique, there will be a placement, tack down, and satin stitch for the applique area. Trim the applique between the tack down and satin stitch.
10. Take the hoop off of your machine, but DON'T remove the design from the hoop. Flip the hoop over and place your completed side 1 piece on the underside of the hoop with the right side facing out. Make sure your stitches at the bottom, left, and right on the side 1 piece are aligned with your stitches for side 2. Use pins, tape, or another temporary method to keep the bottom piece in place while sewing the final finishing step.

Optional: If you wish, as part of this step you can float a piece of felt or vinyl to conceal your stitches on the backside of side 2 as they will be partially visible since side 1 is a little bit shorter. With the wrong side facing the stabilizer, float the piece between side 1 and 2 using either tape or pins, sandwiching this piece between the front and back of the holder.
11. Place your hoop back on the machine and stitch the final finishing step.
12. Remove the assembled gift card holder from your hoop and trim around all 4 sides as desired.

Production Worksheet

Wilcom EmbroideryStudio – Designing
 Design: **DBG_ITH-GC-Snowflake-Side-1**
 Title:

Stitches: 3,965
 Height: 76.1 mm
 Width: 65.9 mm
 Colors: 3
 Colorway: Color Stop Steps
 Zoom: 2.07

This design is optimized for 100% cotton fabric with two sheets of tear away stabilizer. If you are stitching this design on a different fabric, please adjust your stabilizer accordingly.
